I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that the public demands and deserves. Satellite radio provides variety and quality that is not available elsewhere in the rural areas of Arizona, New Mexico, Colorado, Utah, Texas and Nevada. For those of us living, working and travelling in the remote areas of these states, satellite radio is a blessing. John J. Howe, Jr.
